

FIRM PROFILE

GOODS & SERVICES TAX • COMPLETE TAX OUTSOURCING • VIRTUAL CFO

Lodha Signet, 321, Kolshet Road, Thane (West), Mumbai 400 607 | +91 84548 16913 | radiant-services-company@gmail.com | radiant-services.netlify.app

01 THE FIRM

Apex Radiant Consultants LLP is a Thane-headquartered firm of Chartered Accountants built around three things a mid-market or promoter-led business actually needs from a tax adviser: a **specialist Goods and Services Tax practice**, a **complete tax and compliance function delivered on outsourcing**, and a **Virtual CFO capability** that turns the numbers into decisions.

The practice was built by professionals trained in large international accounting networks and in the finance functions of listed Indian corporates. Engagements are scoped, documented and partner-reviewed to the standard expected of a large-firm deliverable, while remaining commercially proportionate. A defensible position is taken first and documented at the advisory stage, so that it holds at assessment or appeal rather than being reconstructed once a notice arrives. Clients deal directly with a Partner throughout.

18+ YEARS OF PARTNER EXPERIENCE	17 PROFESSIONALS ACROSS THREE VERTICALS	20+ STATE REGISTRATIONS ON A SINGLE MANDATE	290+ ASSEESSES IN A FILING SEASON	₹2,500 cr+ CLIENT TURNOVER SERVED
--	--	--	--	--

Specialisation

Goods and Services Tax — advisory, annual return and reconciliation work, and litigation from show-cause notice through the appellate stage. GST is the core of the practice; the tax outsourcing and Virtual CFO lines are built around it so that compliance, books and litigation positions stay consistent with one another.

Structure

Limited Liability Partnership. Functions reserved to Chartered Accountants are carried on through the CA firm; permitted non-attest and outsourcing services are delivered through Apex Radiant Services. Two Partners, supported by Senior Executives, Executives and article assistants across the indirect tax, direct tax and accounting verticals.

Clients

Listed and large corporates, mid-market manufacturing and infrastructure, real estate, hospitality and services, start-ups, and cross-border or foreign-owned entities. The client base includes a listed company with PAN-India operations and annual turnover in excess of ₹2,500 crore.

02 LEADERSHIP

CA Rajkamal Singh

FOUNDING PARTNER • SIGNING PARTNER, TAX & REGULATORY

Experience Over 18 years in tax and finance.

Background KPMG, Deloitte and PwC; senior finance and taxation roles with listed corporates including Birla Corporation, ACC and the Adani Group.

Focus GST classification and valuation disputes; litigation from show-cause notice through appellate stage; multi-State GSTR-9 and 9C engagements; ITC eligibility and apportionment; transfer pricing documentation; permanent establishment and DAPE exposure; cross-border structuring.

CA Amandeep Kaur

PARTNER • VIRTUAL CFO, REPORTING & ASSURANCE

Experience Over 11 years across corporate financial planning and analysis, audit and assurance.

Background Senior FP&A roles with Remsons Industries Limited and Godrej & Boyce Manufacturing Company Limited; audit practice with Kalyaniwalla & Mistry LLP.

Focus Budgeting, forecasting and variance analysis; board and management reporting packs; profitability by product, SKU and channel; working capital, inventory and receivables control; capital investment appraisal; month and year-end close; coordination of statutory, internal, cost and tax audits.

Systems SAP, Microsoft Navision, Infor LN, Tally.

03 SERVICE LINES

A. Goods and Services Tax — core specialisation

Litigation & representation	Replies to notices under Sections 61, 65, 73 and 74 of the CGST Act, 2017; departmental audit and anti-evasion proceedings; appeals under Section 107 and appellate follow-through; pre-deposit and cash-flow planning; drafting to show-cause-notice standard with statutory and judicial citation.
Annual return & reconciliation	GSTR-9 and GSTR-9C for multi-GSTIN groups; books-to-returns turnover reconciliation; ITC bifurcation into inputs, input services and capital goods; fixed asset register review; GSTR-2B, e-invoice and e-way bill reconciliation; documented sampling and materiality basis.
Advisory & structuring	Classification and valuation positions; reverse charge exposure; input tax credit eligibility and Section 17 apportionment; blocked credits; place of supply and export or intermediary characterisation; refund claims; GST health checks delivered with a quantified exposure schedule and a documented fall-back position.

B. Complete Tax Outsourcing

GST compliance	End-to-end monthly and annual cycle — registrations and amendments, GSTR-1, 3B, ITC-04 and LUT, credit reconciliation with vendor follow-up, refund filing, and the annual return, across single or multi-State registrations.
Direct tax	Corporate, firm and promoter computations and return filing; responses to notices under Sections 143(2), 142(1), 148 and 133(6); faceless assessment and CIT(A) / NFAC appellate representation; capital gains; TDS returns and Section 195 certification including Form 15CA / 15CB; regime comparison and salary structuring.
Transfer pricing & international tax	Local File, Master File and Form 3CEB; functional, asset and risk analysis and benchmarking; associated enterprise determination; intra-group service charge substantiation; Safe Harbour evaluation; permanent establishment and DAPE assessment; treaty interpretation and Schedule FA reporting.
Payroll & labour statutes	Payroll processing, TDS on salary, provident fund, ESIC and professional tax computation and filing, full-and-final settlements, and employee tax declarations.
Corporate compliance	MCA and ROC annual and event-based filings; statutory registers and director compliance; LLP filings; FEMA and RBI reporting support; entity set-up for foreign-owned entities; clean-up of legacy compliance backlogs.

C. Virtual CFO & Finance Function

Reporting & MIS	Monthly management reporting; board and investor packs; profitability by product, SKU, channel and customer; variance analysis against budget and prior period.
Planning & control	Annual budgets and rolling forecasts; working capital, inventory and receivables control; cash-flow forecasting; capital expenditure appraisal; costing and pricing support.
Accounts & close	Accounting and bookkeeping; month and year-end close; Schedule III financial statements; consolidation; audit readiness and coordination of statutory, internal, cost and tax audits. ERP environments include SAP, Microsoft Navision, Infor LN and Tally.

04 REPRESENTATIVE EXPERIENCE

CLIENT PROFILE	MANDATE
Listed manufacturer PAN-India; turnover above ₹2,500 crore	GST annual return and reconciliation across approximately 20 State registrations — GSTR-9 and GSTR-9C preparation and review, books-to-returns turnover reconciliation, ITC bifurcation into inputs, input services and capital goods, fixed asset register review, and e-invoice and e-way bill reconciliation, delivered against statutory filing deadlines.
Listed real estate and exhibition services group	Input tax credit apportionment under Sections 17(2) and 17(3), GSTR-9C reconciliation, withholding on dividend distribution and deferred tax review.
Cross-border services group, India and Europe	Permanent establishment and DAPE exposure assessment, inter-company charging model, treaty analysis and transfer pricing documentation strategy.

Mid-market manufacturing and infrastructure	Replies to show-cause notices on classification, ITC reversal and reverse charge, with appellate follow-through.
Owner-managed businesses and professionals	Return filing season handled for a client base exceeding 290 assessees, together with faceless appellate representation before NFAC.
Growth-stage company	Virtual CFO mandate covering annual financial statements, budgeting and board reporting deliverables.

Client identities are not disclosed. Named references are available on request, subject to the written consent of the client concerned.

05 WHY CLIENTS ENGAGE US

GST depth, not GST coverage	GST is the specialisation rather than one line on a list. The same team that files the return prepares the reconciliation and drafts the reply, so the position taken in the return is the position defended in the notice.
One provider, whole function	Indirect tax, direct tax, transfer pricing, payroll and corporate compliance run off a single set of books and a single calendar, which removes the reconciliation differences that arise when these are split across providers.
Large-firm method	Engagement letters, structured working papers, documented sampling and materiality, and Partner review on every deliverable.
Mid-market economics	Delivered without the cost structure, layered staffing or turnaround lag of a large network firm.
Litigation orientation	Advisory positions are taken with the notice in mind, so documentation is built at the advisory stage rather than reconstructed at assessment.
Both sides of the ledger	Tax and regulatory depth combined with hands-on corporate FP&A experience, so advice is tested against how the finance function will actually run it.
Continuity	Direct Partner access and a stable delivery team, so context is not lost between assignments.
